

# EduGAINS

The one-stop shop for everything about Ontario Schools

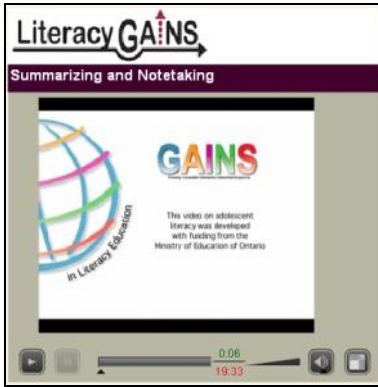

Ontario schools serve a student population from a rich array of cultural and linguistic backgrounds. Throughout the province, many students in English-language schools are English language learners – students who are learning the language of instruction at the same time as they are learning the curriculum and developing a full range of literacy skills. More teachers than ever before are responding to the specific kinds of challenges that these students bring with them to the classroom. *ELLGAINS* provides numerous resources to Ontario teachers that will enable them to better teach English language learners.
